DETAILED ACTION

Acknowledgement of Amendment

1. Applicant's Amendment, received, March 27, 2008, is acknowledged and has been entered. Claims 1-17 are currently pending.
2. Applicant's amendments to the claims, requiring that the getter material comprise an alkaline earth metal pyroborate, eliminates the conflict with the claims of U.S. Patent No. 6,919,679 B2. Therefore the Double Patenting rejections are withdrawn.

Allowable Subject Matter

3. Claims 1-17 are allowed.
4. The following is an examiner's statement of reasons for allowance:
5. Regarding independent claims 1, 7, 11 and 16 the prior art fails to teach or suggest an electric lamp, comprising a lamp envelope having an inner surface; a layer of a luminescent material adjacent to the inner surface of the lamp envelope for generating visible light when impinged by ultraviolet radiation; and a base-coat layer, between said inner surface of said lamp envelope and said layer of luminescent material, for reflecting ultraviolet radiation which has passed through said layer of luminescent material back into said luminescent material, said base-coat layer comprising a particulate non-fluorescent oxidic material with a getter material on its surface which reacts with contaminants present in the lamp, said getter comprising an alkaline earth metal pyroborate, combined with other claim limitations.
6. Claims 2-6, 8-10, 12-15 and 17 are allowable due to their dependency.

7. Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of reasons for Allowance."
